

Year: 6

# The Maya

Term: Spring 1

**Key Questions:**

- Why do we study the Maya in history?
- How did the Maya manage to become so important?
- What was everyday life in Mayan civilization?
- How can we know what was life like for the Mayan people 1,000 years ago?
- If the Maya were so civilized why then did they carry out human sacrifice?
- Why did the Mayan empire decline?

**Enquiry Question: Who were the Maya and what happened to them in AD900?**

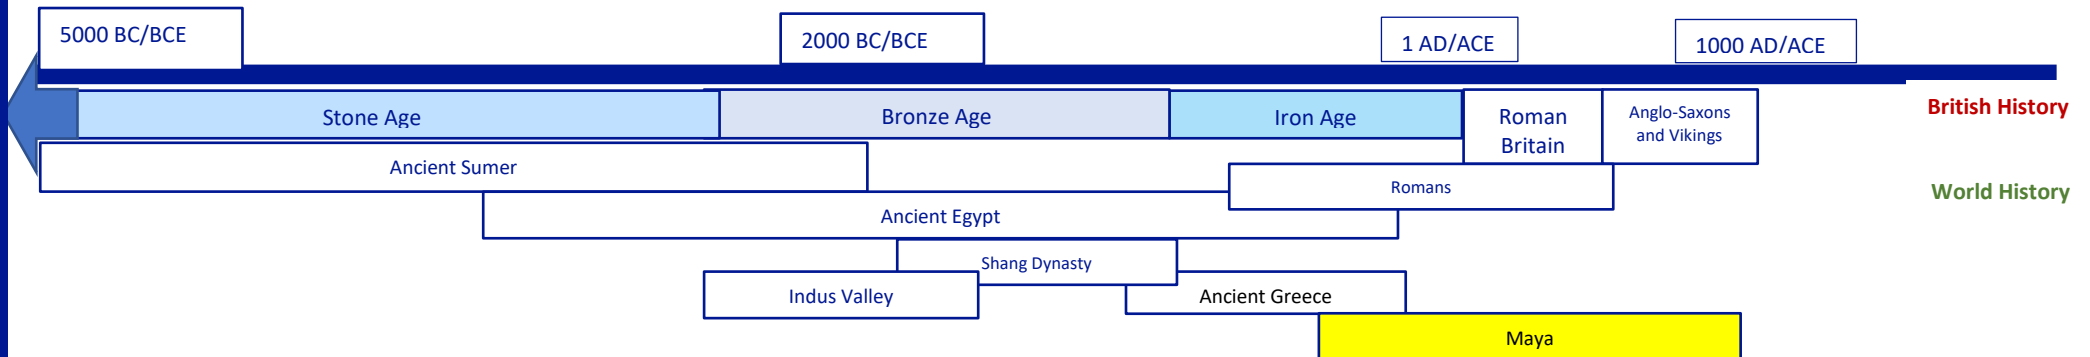

**Key Facts:**

- In the year 1000 settlements like Chichen Itza were among the largest settlements anywhere in the world and Chichen Itza is probably the best preserved of any city in the world from this time.
- After about the year AD830 very little new construction took place at Chichen Itza. The last glyph with a date on comes from AD910. The reasons why the Mayan declined at that time (they weren't entirely wiped out) was probably due to drought and overworking of the soil.
- The Mayans farmed on land they terraced and made fertile. Their staple diet was maize and even worshiped maize as a god. They drank chocolate but not as we know it. It was unsweetened and spiced with chilli peppers. They even had a frother!
- They built pyramids with temples on top and even had an amazing astronomical observatory
- The Maya worshipped many gods and believed they needed offerings of blood.
- We know about the Maya from their writings in hieroglyphics, their advanced number system and the buildings such as the ball court that are still there today
